WHAT TO DO DURING JANUARY

- Visit your apiary!
- Check entrances and the area around them for signs of animal damage.
- Keep entrances clear of snow and debris so when the temps warm enough, they can get out and fly.
- Check your candy boards for supply. With the warm temperatures, the bees are more active and will eat more.
- Build and repair woodenware.
- SW Ohio Beekeeper School from Ohio State University Extension, Warren County, is back as an in-person event. Some great educational sessions and bee equipment vendors

will be on site. Registration is required and space is limited. Registration opens Saturday, January 15th. It fills up fast, so mark your calendars. The event will be March 26th at the Oasis Conference Center 902 Loveland-Miamiville Rd, Loveland, OH 45140. Check back to the web site for more information.
